### *Greetings Springwood Lake Members:*

*Thank you for coming to our 2026 annual meeting. It was a pleasure to have you and the great support that was given, as we continue our quest to restore our beautiful lake/dam. We have come through many hurdles, but we continue to accept the fact that all things are possible, if we only believe!*

*Thanks to all for the kind words received regarding the meeting, and even your comments of disapproval regarding statements that appeared to be rude and combative from a few members. The Board will not permit this again to be displayed during our meetings. We are much better than that—and we can never reach our goal when we are divided and extremely critical of our team players. Therefore, let's work together in harmony, peace and love so that all property values will increase immensely. Our additional funding has been approved, and we will continue to pursue further funding to minimize our need for the 35 percent Tax District.*

*Additionally, I want to correct myself after giving consent for members to make improvements in the lake/dam, such as cutting and removing debris. Please refrain from making any improvements to the lake/dam until our insurance policy has been finalized. We do not want neither our members nor our friends to sustain injuries in the process. The Board will notify you when the insurance is completed and approved.*

*Members, please remember the Board is a fiduciary entity and will not release or share your personal information with any third party or any group eager to review it for personal use. We respect your rights to privacy!*

*Please be safe, stay warm and know that we will get the lake/dam restored (it's just a matter of time). Remember, "there is nothing too hard for our God." We also know that "No weapon formed against us shall be able to prosper."*

*Thank you for your continued support!!*

Harry Green, Jr.  
President
